PROFESSIONAL EXPERIENCE

Axiom Digital — Groningen, NL
Founder — *Jul 2026 – Present*

- Founded an AI and digitalisation consultancy for small businesses in the Northern Netherlands; advise SMEs on where AI and automation add real value, and where they do not
- Build websites and digital tools for local businesses
- Two active clients, now in the maintenance phase; own client acquisition, delivery, brand and administration
- Built a VAT-compliant invoicing system, an Excel ledger with quarterly VAT summaries, and a business plan with financial projections

Rahmani's Gordijn-Kledingatelier (family business) — Leek, NL
Operations and Digital Lead (part-time) — *Sep 2020 – Present*

- Run bookkeeping, invoicing and financial administration, keeping cash flow and records up to date
- Handle procurement and supplier relations, sourcing fabrics and materials at the right price and quality
- Improved internal processes and digitised administrative work, including bookkeeping, saving about 8 hours per week through automation
- Built and maintain the company website and digital systems; serve customers directly, from first consultation and fitting to the finished piece

LEADERSHIP AND ACTIVITIES

Model European Parliament, Groningen and The Hague — 2022 – 2023

- Mentor, MEP Groningen (2023): coached new participants on debating, building arguments and policy writing; managed delegation meetings
- Delegate, MEP Nederland in The Hague and MEP Groningen (2022): represented a member state; drafted, amended, negotiated and voted on resolutions; researched cryptocurrency legislation in a transnational context

Generatie aan Zet, EU citizenship programme (civic service) — Nov 2022 – Jan 2023

- Visited the European Parliament in Brussels, met a Member of the European Parliament and interviewed a journalist on EU politics; ran sessions for fellow students on what the EU does

PROJECTS

- **EconoSift:** open-source, self-hosted research workbench for macroeconomics and financial markets, with optional AI summaries (Python, FastAPI, Next.js, Tauri, Docker)
- **EconoSim:** browser-based economics simulator with 21 textbook models, shocks, time paths and step-by-step working for each figure (Next.js, React, TypeScript, Recharts, KaTeX)

- **Runway:** browser-local cash-flow forecaster for freelancers, students and small businesses, with day-by-day balance projections (React, TypeScript, Vite, Tailwind CSS, IndexedDB)
- **Alefbe:** English-language course for Persian with structured lessons and a spaced-repetition script trainer (Next.js, TypeScript, Tailwind CSS, Vercel)
- **Nihongo Path:** Japanese study app with spaced-repetition kana drills and 62 lessons (Next.js, TypeScript, Tailwind CSS)
- **DeskSeek:** lightweight desktop client for DeepSeek and compatible endpoints, with streaming chat, a memory profile and a coding agent; API keys held in the OS keychain (Tauri, Rust, React, TypeScript)
- **CraftyOS:** self-hosted Minecraft server manager that turns a spare PC into a hosting appliance, with a web panel, automatic Java, cloud backups and remote access (Go, Svelte, TypeScript, Linux)
- **danelrahmani.com:** personal site (Node.js, React, TypeScript, Notion CMS); all projects at danelrahmani.com/projects

SKILLS, LANGUAGES AND CERTIFICATION

- **Technical:** Excel (advanced), PowerPoint, Python, R, Stata, GitHub, Next.js / React / TypeScript, FastAPI, Docker and Linux
- **Languages:** Dutch (native), Persian (native), English (fluent; Cambridge C2 Proficiency, 204), Japanese (limited working proficiency, conversational), French (elementary)
- **Certification:** Cambridge C2 Proficiency, score 204 (Jun 2023)
- **Interests:** Financial markets, Japanese language and culture, piano and history
